

Android Enterprise Recommended for rugged devices

Android Enterprise Recommended is a Google-led program that helps businesses confidently select, deploy and manage the Android devices and services best suited to meet their needs. Look for the Android Enterprise Recommended badge when selecting rugged devices.

Mobility is transforming every job and every industry, from field services and warehouses, to retail stores and manufacturing plants.

The **Android Enterprise Recommended program for rugged devices** makes it easy to identify those that are built to handle demanding workloads over a longer device lifetime, as well as guaranteeing minimum hardware, OS support and provisioning specifications.

Enterprises increasingly rely on Android as their go-to rugged mobile platform and this program validates devices against an elevated set of standards.

Select with confidence

Android Enterprise Recommended provides a curated list of verified devices and services that meet elevated enterprise requirements from partners trained by Google

- Built for harsh environments
- Able to withstand drops, dust and elements
- Extended battery life to last a whole day
